

# Hi, I'm Nick Morrow.

## Professional Summary

I am a Technical Leader and Software Engineer who is focused on going above and beyond to support my team and serve customers. I am goal oriented and motivated to continue to grow as a Full-Stack Developer.

## Experience

### SOFTWARE ENGINEER *Jan 2023 - Current* *Accenture Federal Services*

- As a Full-Stack Developer I took on the role of a Technical Lead training and mentoring new developers while continuing to support business needs through modernization efforts. As an initial point of contact I had to bridge the gap between the technical knowledge and business understanding to meet goals and objectives. My work ranged from implementing data processing features to accept forms and deconstruct data to be saved in MongoDB and reconstructed as new objects to be sent through other managed applications to completely restructuring the front-end architecture using SCSS and TypeScript to modernize legacy applications.

### SOFTWARE ENGINEER *Jan 2019 - Jan 2023* *Federal Reserve Bank of Kansas City*

- Full-stack Developer, agile process and scrum board management, DBA, cloud development, DevOps/Middleware, TDD, version control, and working directly with customers to gather requirements

### TEACHING ASSISTANT *Aug 2017 - Dec 2018* *Northwest Missouri State*

- Data Structures teaching assistant and tutor

### SALES ASSOCIATE *Jun 2015 - Feb 2017* *Best Buy*

- Computer sales and consultant

### TECHNICAL ASSISTANT *Aug 2013 - Aug 2016* *Grace UMC*

- Live Streaming, video editing, and presentation guide

### WEB DEVELOPER INTERN *Jun 2013 - Jul 2014* *IDP Web Design*

- WordPress, version control, content management, gathered requirements directly from business, and made front-end enhancements

### TEACHING ASSISTANT *Aug 2013 - May 2014* *Lee's Summit High School*

- Introduction to Website Design tutoring and classroom assistant

## Education
